

NEGOTIATE YOUR WAY AHEAD

Building the skills and techniques to successfully negotiate every day

WHY DOES THIS MATTER TO YOU?

Negotiations happen every day and in multiple contexts – at home, work and in the community.

Skillful negotiators know that a successful negotiation is not about 'win-lose', but 'win-win'. It's finding the common ground so that both sides of the negotiation walk away feeling they have been heard and are satisfied with the outcome.

Negotiation skills are necessary for everyone. When you can't negotiate well you'll end up agreeing to things you don't want to do, or not getting what you need and deserve in life.

To be successful, you need to:

- Understand yourself and manage your trigger points
- Be able to understand other people's perspectives
- Be prepared based on the context of the situation

WHAT'S THE GOAL?

To develop the understanding, skills and techniques to increase your confidence and ability to successfully negotiate outcomes in different situations.

WHAT WILL YOU LEARN?

The Negotiate Your Way Ahead Program is designed to help you in both your personal and professional life. In this session you'll learn:

- The critical elements of successful negotiations, and how and when to best apply each element for maximum effect
- How to identify whether your mindset is working with you or against you, and the way to best manage your feelings, emotions and thought patterns
- Ways to analyse the situation from multiple perspectives so you can better understand the stakeholder agendas, expectations and behaviours
- The key steps to take before, during and after a negotiation process to ensure you are strategically and tactically ready for it
- How to apply different skills and techniques to negotiate effectively in both your personal and professional life
- Techniques to deploy to turn the negotiating table in your favour
